

**September 14, 2015**

**We, the people of White Rock, hereby call for the resignation of Wayne Baldwin from his elected position of Mayor of White Rock, B.C**

**We believe that through his actions as Mayor of writing a letter to the Editor of the local newspaper and attempting to wrongly persuade the Public into believing that the Metro Vancouver Regional Growth Strategy (RGS) was more than just “guidelines only”, Wayne Baldwin has broken the Public trust.**

**We believe that Wayne Baldwin knew, or ought to have known that the RGS growth targets for White Rock are not legally binding and the numbers contained therein are not mandated to be met “by provincial law” as he tried to claim.**

**We believe that Wayne Baldwin knew, or ought to have known, that he was wrong when he said, “This is the law and we must follow it”.**

**We believe that Wayne Baldwin attempted to have the Public believe this incorrect statement to attempt to numb the Public to the many non-OCP compliant development proposals that he and the Coalition Councillors have endorsed to be progressed forward through the process even in the midst of an OCP review.**

**We believe that through his actions Wayne Baldwin has demonstrated that he does not have the best interests at heart for the overall good of the Community and we believe that he is no longer fit to serve the Public as Mayor.**

**We call for Wayne Baldwin’s resignation..**
